

MyCemstoneSM

With MyCemstone, Cemstone delivers to your laptop.

What's been ordered? What's been shipped? On which projects?

It's never been easier to answer those questions—and to track all your Cemstone account activity in one convenient place, in realtime, for free. MyCemstoneSM is enhanced, streamlined and packed with even more features to make your operation more productive and more profitable:

- Account information delivered anytime, anywhere
- Manage your operations and administration in real-time
- Get the information you need, when you need it: Information is archived
- View next day orders, invoices, delivery tickets, statements and more
- Access all information anytime, from any field office, desktop, laptop or Blackberry
- No software installation required
- No fee

For more information, including a demo video, visit www.cemstone.com and click on the MyCemstone icon.

MyCemstone has removed the need to review mountains of paperwork. I believe others in the industry should adopt this unique program from Cemstone.
